Summary

Frontend-focused Full-Stack Developer with **3+** years of commercial experience. Built real-time systems, complex dashboards, and product features using **React**, **TypeScript**, **Next.js**, and **Node.js**. Comfortable across the stack; strongest on the frontend.

Professional Experience

CoinWay Startup (*Remote*) *Aug 2023 – Sep 2024*

Full-Stack Developer — B2B/B2C crypto payment platform, 20+ coins, invoicing and multi-wallet accounting.

- Built merchant invoice and multi-wallet UI (**React**, **TypeScript**); integrated real-time payment updates via **WebSockets**.
- Redesigned high drop-off multi-step payment flow — identified friction points and rebuilt UX, directly reducing payment failures.
- Developed backend API layer with error handling and retry logic for payment endpoints (**Node.js**).

Big Studio (*Remote*) *Oct 2024 – Oct 2025*

Full-Stack Developer — Internal SPA for Amrest's delivery ops on Azure; 500–600 couriers, up to 9,000 orders/day across Poland.

- Built per-restaurant order tracking and courier dashboards (**React**, **TypeScript**, **Mapbox**).
- Implemented real-time courier location tracking in a **microfrontend** architecture on **Azure** — geolocation streams synced with live order state.
- Integrated backend APIs for order sync and dispatching, handling concurrent updates without stale UI state.

Freelance via Upwork *Dec 2025 – May 2026*

Frontend Developer — AI video generation platform, 200+ active users/hour.

- Shipped new features autonomously in an existing **Next.js** + **TypeScript** codebase within a remote product team.
- Diagnosed and fixed video/image caching bugs causing production rendering failures across async pipelines.
- Integrated third-party **AI APIs** and async video processing workflows with reliable job queuing.

Education

Adam Mickiewicz University, Poznań *Oct 2021 – Feb 2025*

Bachelor of Computer Science

Course: Certified Full-Stack Developer — freeCodeCamp

Skills

Frontend: React, Next.js, Redux, TypeScript, JavaScript, TailwindCSS

Backend: Node.js, NestJS, FastAPI, PostgreSQL, MongoDB, Redis

Tools: Docker, Git, Linux/Unix, REST API, WebSockets, Mapbox, Azure, Jira

Languages

English (B2) | Polish (C1) | Russian (Native)
